Pointer options of markedwardnewman.com

The Pointer options below allow easy management of the domain hosting path and easy redirection to external URLs.

NOTE: Changing your Domain pointer options will require 1-24h for your domain to become fully operational with the new setting!

- ☒ Hosting Path (Local)
- ☐ Frame Redirect (Hide target URL)
- ☐ Header Redirect (Show target URL)

This is the home directory of your domain/website (Document Root/public_html), where you can upload your website content and where your index.html file is located.
